

[ENVIRONMENT DYNAMICS]

DEVELOPING COMMUNICATION ENVIRONMENTS

For the past 20 years we have used our knowledge of integrating telecommunication systems for state of the art system solutions. With a detailed approach to interconnecting optic and IP telecommunication, we are joining different environments, shortening the distances and preserving what is natural.

INTERCONNECTING, CONVERGING, PRESERVING AND DEVELOPING

Together with our partners we responsibly develop the future environments: Actelis Networks, Alvarion, Arbor Networks, Artivision Technologies, Ceragon networks, Crescendo Networks, Eci Telecom, Life Size, MRV Communications, Optibase, PacketFront, PacketLight Networks, RAD Data Communications, RadVision, RadWin, Scopus Video Networks, Thomson Grass Valley, Veraz Networks.

PLANING BUILDING ACHIEVEING THE GOALS

The path of planning, building and maintaining networks as well as providing educational services has been entrusted to us by: Telekom Slovenije, Eles, RTV Slovenija, Mobitel, IBM Slovenija, Stelkom, Elektro Ljubljana, Elektronabava, Elektro Celje, Luka Koper, Pro Plus, BH Telekom, Macedonian railways and many others.
